

# Flexible Resourcing

One of the most important challenges that any firm faces is identifying, recruiting and retaining talented individuals. This is often more challenging where the need for interim resources arises. Since 2019, over 40% of UK corporates have sourced temporary legal resources from ALS providers like Condor Resourcing to cover long-term absences, resource large projects, or manage unanticipated spikes in workload.

Condor Resourcing, Fieldfisher's Legal Resourcing platform, differentiates ourselves by working with client relationship partners to ensure that we fully understand our clients' needs, and to validate candidates that we put forward to clients for consideration.

**“Finding the right resource for your team, with the skills and knowledge you need, at an appropriate price, is what we pride ourselves on”**

With a team of experienced recruiters and a sizable pool of candidates, Condor Resourcing has helped Fieldfisher's clients effectively manage their resourcing challenges for over five years. Finding the right resource for your team, with the skills and knowledge you need, at an appropriate price, is what we pride ourselves on.

# How we can help

Condor is an alternative legal solutions (ALS) provider backed by quality assurance from Fieldfisher lawyers. Condor Resourcing is the 'people' resource of the Condor ALS suite of solutions.

We address a need when organisations find their in-house legal resources stretched, or there is a need for a lawyer with specific technical skills for a task or project. We are able to quickly parachute in the right legal talent your organisation needs to fill the gap.

We maintain a valuable contact book of highly skilled and experienced lawyers for project work that are quality checked and contract at a lower price point than a Fieldfisher secondee, saving clients time and money at times that are critical to their business.

We use our contact book of skilled lawyers to provide clients with the additional legal resource when they need it instead of them entering into the time and cost of instructing a law firm.

Whether additional resources are needed for a few days, a few weeks or a few months, Condor Resourcing offers an agile and high calibre resource solution.

Condor Resourcing lawyers can work remotely or onsite to provide a level of service you expect from a City law firm, at a significantly lower cost.
